

Shed security

Inevitably (for the time of year), there have been a number of shed burglaries in the district.

We would like to advise you that you can buy effective battery operated motion sensing alarms for sheds from under £10. These can be purchased from D.I.Y stores and many internet sites, and can come with either a key fob or number pad to activate / deactivate the alarm.

Please note also that property marking your garden tools (particularly power tools) acts as an extremely effective deterrent to burglars, since being stopped with stolen property which is postcoded leaves no room for ridiculous explanations. Also, boot sales, second hand tool shops etc are unlikely to want to sell on any items which have obvious postcodes painted on them. If you'd be interested in buying a property marking pen / kit, try entering "property marker pen" into your search engine or check out "CRE Mark" as an example of the many products available. Your property marker should be visible and not Ultra Violet for tools otherwise your burglar will not be aware that your belongings are marked.
